Excel SS-2 All Natural™

Specifications

Western Excelsior manufactures a full line of Rolled Erosion Control Products (RECPs). Excel SS-2 All Natural temporary Erosion Control Blanket is composed of a weed free agricultural straw matrix mechanically (stitch) bonded on two inch centers between two biodegradable, jute/scrim nets. Straw utilized in manufacturing the SS-2 All Natural is weed free. Thread utilized in the construction of the blanket is biodegradable cotton. The SS-2 All Natural blanket is recommended for use in channels or slopes requiring erosion protection for a period up to twelve months. Actual field longevity is dependent on soil and climatic conditions.

Each roll of EXCEL SS-2 All Natural is made in the USA and manufactured under Western Excelsior's Quality Assurance Program to ensure a continuous distribution of fibers and consistent thickness. Verifiable values are provided in Table 1 and product characteristics are provided in Table 2.
